DYNAMIC TRIO STAR IN FILM AT D. C. THEATRE

Filmdom's most dynamic three-
some are starred in Warner Bros.
exciting film, "Manpower," which
is now playing at the Daly City
theatre. The unbeatable star com-
bination which heads the cast is
Edward G. Robinson, Marlene
Dietrich and George Raft. You
can imagine the action and ex-
citement that sweeps through the
film when those three get to-
gether.

Robinson and Raft play the
roles of a couple of robust line-
men whose dangerous job it is
to repair broken high tension
wires. They are great pals, sharing
each other's happiness and trouble
until a de-lucious blonde,
played by alluring Marlene Diet-
rich, comes along. Hard, cold and
calculating, she suspects Robinson
of having ulterior motives when
he showers her with gifts and
shows his affection in many
ways. But Robinson is sincere.
He has never known the love of
a woman and Dietrich becomes
his ideal.

Raft sees her for what she is
and tells Robinson to forget about
her. He says that she has gold-
digger's blood in her veins and
will bring nothing but trouble to
Robinson. Raft goes still further.
He asks Dietrich to drop Robin-
son. That sends her into a rage
and she accepts Robinson's mar-
riage proposal.

(Continued on Page 3)

According to the news wires, this battle between George Raft and Edward G. Robinson on the set of "Manpower" was one film fracas in which no punches were pulled. The exciting drama is now playing at the Daly City theatre.

More Interest in Sports
Is interest in athletic affairs slackening because of the European war? Not if attendance at baseball games is any criterion. At the Yankee stadium this summer, 94,000 paid to see a game, the third largest crowd in baseball history. And in the Pacific Coast league, Seattle, until June 8, 1941, drew 37,000 more admissions than during the corresponding period in 1939, and Seattle led the league in attendance in 1939. It seems that people want to get away for a couple of hours from the war news in Europe and welcome the opportunity of going to the ball game or playing a bit of golf.

Longest River
The Mississippi-Missouri, generally considered one river by geographers, is the longest in the world. From the fountain-head of the Missouri, in the Rockies on the southwest border of Montana, its total length is 4,221 miles. From the source of its other branch at Lake Itasca in northern Minnesota, the so-called Mississippi proper is 2,653 miles long. The second longest river is the Nile, 4,000 miles from its remotest headstream, the Kagera, which flows into Lake Victoria. The Amazon river in South America has the greatest basin—2,772,000 square miles.

Home Work
Since the invasion of Holland and Belgium, members of the senate committee handling army and navy affairs have taken to holding off-the-record evening meetings in each other's homes to brush up on the facts about Uncle Sam's defenses, with high United States military experts invited in as "teachers." The speed with which the senate has acted on national defense measures is taken as evidence that the senators are apt pupils and learn fast.

Perfect Temperature
Colossal cave, near Benson, Ariz., has been explored for 39 miles. It is without moisture and the temperature remains at 72 degrees the year around.

Most Spicash
Zavala county, Texas, grows more spicash than any other county in the world.

Long Ticket
Prof. Grosvenor Robinson of Bates college has begun an 8,000-mile bus tour of the United States. It took an entire afternoon to make out the 15-foot long bus ticket that will take him on his vacation, a substitute for a European tour.

An Old Custom
The customs of women drying their hair and tinting their fingernails date back some 4,000 years in Egypt, as is evidenced by pictures in ancient monuments and by mummies.

Half 'n' Half Suits for Campus

MATCH 'EM AND MIX 'EM is what undergraduates do with suits. Lesley Woods of the CBS "The Man I Married" series wears a typical classroom favorite—beige and brown checked jacket of one suit with the camel's hair cloth skirt of another suit, a bright red pull-over sweater and white blouse—Three suits, sweaters and several blouses, mixed properly, will well equip your student daughter. (Talk o' the Teens Clothes from B. Altman.)

Dangerous Firewood
 Mrs. L. Marais of Cyterkniff, Western Transvaal, picked up a piece of firewood while lighting her kitchen fire and found to her horror that she had seized a deadly night adder. With great presence of mind, the housewife struck it against the floor and battered it to death.

Dynamic Trio At D. C. Theatre

(Continued from Page 1)
 riage proposal partly because she feels sorry for him and partly to spite the embittered Raft.
 But a marriage built on spite and pity is bound to have disastrous results. Try as she may, Dietrich can't get used to Robinson's well-meaning, but clumsy ways. And to make things worse, she falls head-over-heels for Raft!
 What a setup! The pent-up emotions of those three characters run through their hearts with the power of a high-voltage cable... Robinson idolizing Dietrich... Raft, at first contemptuous of her, later fascinated by her confession of love for him... Dietrich, nearly driven to madness with her pretended love for Robinson, having to listen to him constantly praise the man she really loves. It's a situation loaded with T.N.T., and it explodes in the high-powered climax.
 Companion feature on the new bill is "Border Vigilantes" with Hopalong Cassidy.

Admit Tractor Parts
 France will admit tractor engine parts into the country at reduced duties if they are to be used by farmers.

Good Grooming

You may have the most expensive wardrobe of any woman in town, but if you're not well groomed it doesn't mean a thing. And when we say "well groomed" we mean from the skin out. Pretty CBS songstress Lynn Gardner of the "Silver Theatre Summer Show" begins her toilet with a brisk shower, and shows here her second step in grooming—putting on talcum powder with a Xandra mitten. For daytime she uses a light cologne, and in the evening a floral perfume. Her hair is given one hundred strokes of the brush each day to keep it lustrous, and Miss Gardner would prefer getting ten minutes less sleep in the morning, than not have enough time to apply her make-up carefully.

No Blackout
 Failure to display tail lights on their baby carriages during the blackout cost four women four shillings (about 80 cents) each. They were fined in magistrate's court at Walsall, Staffordshire. The arrests were made after one of the carriages was hit by an automobile.

Most Spanish Spot
 The most Spanish spot under the American flag is the romantic city of Ponce, on the southern coast of the United States territory of Puerto Rico. Although Ponce was the first city to be entered by the Americans who took Puerto Rico in 1898, it has been the last to give up the Latin heritage it derived from its Conquistadores. English is spoken widely in Puerto Rico, but Spanish is the prevailing language in this stronghold of old Castille.

Wrong Training
 Colleges continue to train students for jobs that no longer exist, Chester G. Moore, chairman of the board of the Central Motor Freight association, recently told a conference at the University of Illinois. And all the time, he said, jobs as salesman, accountants, office managers, solicitors, traffic managers, and tariff experts—in the trucking industry, are going begging.

Hull Mentioned
 During a press conference in Washington, former Gov. Al M. Landon of Kansas, inadvertently referred to Secretary of State Hull as "President Hull."
 "Is that ally significant?" inquired a reporter.
 "Not especially," replied the 1936 Republican presidential candidate, but he conceded that if the Democrats picked Mr. Hull they would at least have a good candidate.

Chinese Secret Societies
 Police raids on two big meetings in a Canton, China, cemetery resulted in the arrest of nearly 100 Chinese who were suspected of being members of illegal secret societies. The societies hold their meetings at the grave of one of their slain members.

Soundproof Clubs
 Miami Beach night clubs must be both soundproof and air-conditioned, under a city ordinance.

Wild Rice
Wild rice contains 14.5 per cent protein, 9.3 per cent moisture, 4 per cent sugar, 1.8 per cent ash, 1.1 per cent fiber and small amounts of fat, phosphorus, potassium, magnesium, sulfur, calcium and chlorine, says the American Chemical Society. The process of parching the seed, introduced by the Indians to facilitate removal of the hulls, reduces appreciably the content of fat, fiber, protein, total ash, magnesium, potassium and phosphorus. In a special test it was found that the vitamin B₁ content of three samples of wild rice seed averaged 1.87 international units per gram, whereas the average of the same three samples when parched was 1.33.

Too Shy
Fred Kral, 73 years old, is "too shy and embarrassed," according to his 64-year-old bride of Cleveland, So. Mrs. Kral freely admits, she not only did the proposing, but also reversed the usual process by bestowing a kiss on the blushing bridegroom at the end of the ceremony.

Geniuses Were Dull
Most of the world's geniuses were not bright children, but were queer, dull, or shy, according to Dr. George Barton of Carnegie Institution of Washington, recognized as the leading historian of science.

Guard President
At President Roosevelt's party for Washington newspaper reporters, guests who had wandered to the south lawn had a queer sensation when they tried to get back into the Mansion and found the doors locked. Peering through the windows they saw that the brightly lighted Red room, the Blue room and the Green room had been suddenly emptied. Before long, a secret service aide came to explain. The rooms had been cleared to allow President Roosevelt to pass through to his private elevator. Just part of closer guarding of the President since the war has become worse.

Family Cowpunchers
"Packsaddle" Ben Greenbough of Red Lodge, Mont., claims to have the bronze-clingest family in the United States, declares the American Magazine. His two sons and two daughters go the rounds of about 25 rodeos every year, and consistently rope in the championship prizes.

Houses for Poor
Benjamin Mason, Philadelphia Negro, on relief, won \$150,000 in an Irish sweepstakes, and promptly took his winnings and put them into a housing project for 71 families, thus replacing a slum block. The Housing authority advanced the remainder of the money.

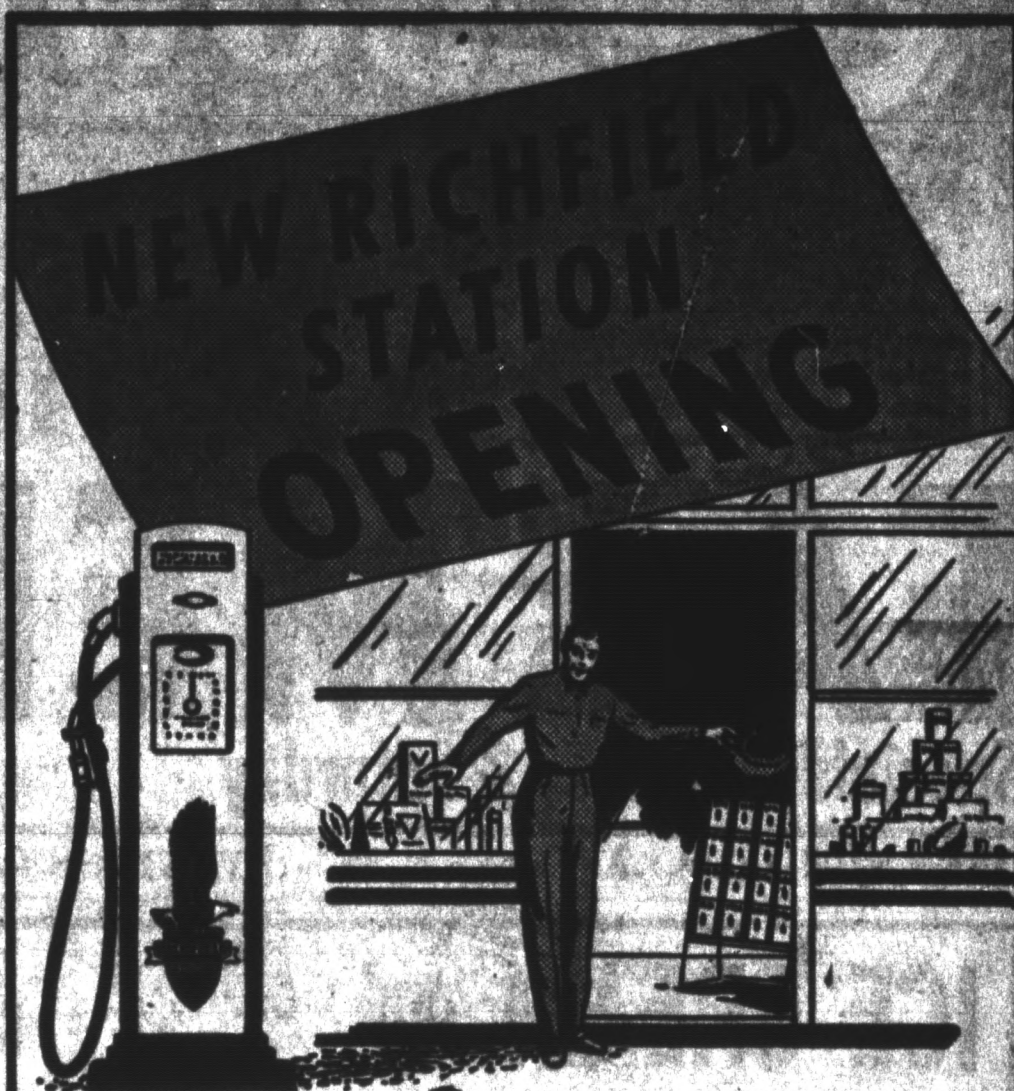

Antique Decorations
Shell, crystalline spar, bone and ivory were all employed by the ancients for architectural decoration. On these hard substances, the colorists could produce excellent designs. The thin film of color, however, was not durable—it soon wore away and light places showed through. Since those days, modern methods of decoration include certain mordants to set the colors and the steeping of small articles made from such dense substances in a dye bath for several hours.

Oldest Going Concern
A World's fair has been held annually at Leipzig without interruption for over 700 years, breaking all records for business longevity. The map of Europe has been repeatedly redrawn, dynasties have risen and fallen, but the fair has remained the one thing permanent. The fair attracts business men today from 74 countries. American participation dates back for a century. The fair includes the newest art and industrial products from 33 of the leading industrial countries.

Chemicals in Textiles
Textile fibers, including cotton, linen, rayon, silk and wool, are built up mainly from carbon, hydrogen and oxygen, although silk has in addition some nitrogen, and wool has nitrogen and sulphur.

Arctic Federal Theater
Murmanak, Russia, beyond the Arctic Circle, is to have a federal theater.

German Language
The German language is spoken by a majority of the people in 16 of the 23 cantons in Switzerland.

Under New Management

And we hope that you will give us an opportunity to demonstrate our desire to be of service.

Naturally we are featuring Richfield's famous gasolines, motor oils, lubrication, Goodyear tires and batteries, and the best quality national brand accessories. But if you only need the windshield cleaned, air in the tires, water in the battery or any other service for your car, be sure to come in—we'll fix it in a jiffy.

Meat Balls With Noodles

Broadcast by Mary Lee Taylor,
October 16, 1941

1 cup ground beef (1/2 pound)
1 cup ground pork (1/2 pound)
1 1/2 cups Fat Milk
1/2 cup soft bread crumbs
2 tablespoons finely cut onion
3 1/2 teaspoons salt
1/2 teaspoon pepper
1 1/2 tablespoons flour
2 tablespoons hot fat
10 1/2-oz. can condensed vegetable soup
3/4 cup water
3 cups broken noodles (1/2 inch width)
8 cups boiling water

Mix together beef, pork, 3/4 cup milk, bread crumbs, onion, 1 1/2 teaspoons salt and pepper. When milk is absorbed, wet tips of fingers with water and shape mixture into 18 small balls. Roll balls in flour. Cook until brown on all sides in hot fat. Pour mixture of soup and water over balls. Cover and cook slowly for 30 minutes. Meanwhile, cook noodles until tender in boiling water and remaining 2 teaspoons salt. Drain, then add to soup mixture along with remaining 3/4 cup milk. Heat thoroughly, but do not boil. Serve at once, arranging meat balls on top of noodle mixture. Serves 6.
